\$395.00

\$130.50

With a picture which gives the customer
and charges. It illustrates the various parts
including a simple explanation of our method
of distributing parts.

This Price List is for use with Keyboards only
and follows the same system as the one
shown in this Price List, except that it is

Lanston Monotype Machine Company

Philadelphia, Pa.

PRICE LIST OF PARTS

GUARANTEE AND CHARGES

WE GUARANTEE every article to be free from all defects of material or workmanship, and will gladly replace (f. o. b. our factory) any parts that are not up to this standard of Monotype quality.

ALL PRICES are net f. o. b. our factory, and are subject to change without notice; all expenses for freight, expressage, postage or special requirements of customers are additional.

EXCHANGES of repaired parts for worn parts (for example, Valve Banks) are based on the material returned being in condition to be repaired. The repaired material is billed at the price of new and proper credit is given on receipt of the worn material. If the returned material is not in condition to be repaired, the charge for the repaired material furnished will be eighty per cent (80%) of the price of the corresponding new material.

SUPERSEDED PARTS will be furnished at list prices as long as we have them in stock. When our stock is exhausted, the improved parts which have superseded them must be furnished instead or, if the superseded parts are made special, they will be charged accordingly.

SPECIAL WORK of any kind, such as alterations, changes, rebuilding, repairing, or applying of parts, will be charged extra, in addition to the parts used, unless specifically stated to the contrary.

DIRECTIONS FOR ORDERING PARTS

(A Careful Reading Is Important)

All of these directions are essential. You will save time, trouble and money by reading them carefully before ordering any parts.

If you are not familiar with the Monotype terms here used, read "Designation of Parts" and "Contents of this Book" which follow these "Directions for Ordering Parts."

To enable us to fill orders correctly you must give us the following information:

- (1) Give the number of the Keyboard for which the part is required (stamped on the Name Plate).
- (2) Give the name of the part.
- (3) Give the symbol of the part (give every character in the symbol exactly as printed—every one means something).
- (4) Give the quantity required of each part.

To insure getting the correct name and symbol:

Use the Plate Book in conjunction with this Price List.

DESIGNATION OF PARTS

(Name)	(Quantity)	(Classification Number)	(Price (Symbol) each)
Em-rack Slide head Screw (2) . . .	233..	5KB3	*.08

NAME: Shows that these Screws hold in place the Em-rack Slide head.

QUANTITY: Two of these Screws; where no quantity is given "1" is understood.

CLASSIFICATION NUMBER: Standard pieces which may be used in several places under different symbols are given classifying numbers; those numbers beginning with "1" are bolts, "2" screws, "3" nuts, "4" washers, "5" dowels, "6" springs, "7" rivets, "8" spring pins and posts, "9" cotters. All pieces having the same classification number are alike without regard to what their symbols may be.

SYMBOL: Identifies and locates the part. The letters "KB" indicate that these Screws are in the "KB" section (the Keyboard being divided into three Sections lettered KA, KB, and KC). The figure 5 preceding the letters indicates that these Screws are in the fifth group of this section (the groups comprising each section being numbered consecutively from one up). The figure 3 following the letters indicates that these Screws are the third pieces of this group (the individual pieces comprising each group being numbered thus consecutively). If a lowercase letter precedes the first figure in the symbol (for example, Bell a1KB1) it indicates that there have been one or more changes in the piece and the new piece is not interchangeable with the superseded one without changing or altering other parts. If the letter "K" appears as the last character of the symbol (for example, a2KB1K) it indicates that this piece is furnished only assembled with one or more other pieces, in which case a reference mark replaces the price and a note at the end of the group gives details and price for the assembly. When a cap "X" is the first character of a symbol (for example, X3KB) it calls for the complete group as listed above it.

PRICE: Always given for one piece and must be multiplied by the "quantity" to obtain the total. If a price is given, the piece can be furnished separately. If a black star (*) precedes price, this amount is included in the price of an assembled part given in one of the notes following the group but may be purchased separately if desired. If the price is replaced by a reference mark, it indicates the piece is furnished only assembled with one or more other pieces and the price given in the note at the end of that group includes the price of all pieces in the assembly. The price opposite the complete symbol (symbol starting with "X") is for all the parts in the group as indicated.

Mr. William R. Rickers
Perfection Type Incorporated
Park Square Building
6th and Wacouta Streets
St Paul 1, Minnesota

Dear Mr. Rickers:

Thank you for your letter of March 29th and interest in our Reconditioned Monotype Style "D" Keyboard Machines.

Perhaps we should first mention that all of our Machine Units are thoroughly reconditioned and fully guaranteed to be equivalent to New Machine Units. We further guarantee that they are fully capable of operating at maximum efficiency and to the users entire satisfaction. In addition, a few of the latest features are included.

Our Reconditioned Style "D" Monotype Keyboard Machines, 90Em, run between 1500.00 to 1700.00 f.o.b. Bethayres, Huntingdon Valley, Penna. Our Exchange Program has been established to maintain our stock of used machines at a constant level and most important, reduces the customers down time to a minimum.

If you will let us know if you have a unit to trade-in, or prefer an additional machine unit, we will be most happy to submit our quotation. We do hope that we are favored with your business and assure you of the very finest.

Very truly yours,
